## CONTROL OF IMMIGRATION: QUARTERLY STATISTICAL SUMMARY, UNITED KINGDOM

JULY – SEPTEMBER 2009

### MAIN POINTS

---

#### BORDER CONTROL

- In Q3 2009, the overall number of visas issued was 610,245, an increase of 3 per cent compared with Q3 2008 (590,510). 534,960 were issued to main applicants and 75,285 to dependants.
- An estimated 371,000 non-EEA students (including student visitors) were admitted in 2008 compared with 361,000 in 2007, an increase of 3 per cent.
- The total number of work permit holders and dependants admitted to the United Kingdom was 112,000 in 2008, a decrease of 12 per cent over the previous year.

#### ASYLUM

- The number of applications for asylum, excluding dependants, was 24 per cent lower in Q3 2009 (5,055) compared with Q3 2008 (6,685).
- In Q3 2009, 7,240 initial asylum decisions were made, excluding dependants, an increase of 38 per cent compared with Q3 2008 (5,230). 79 per cent of initial decisions were refusals, 12 per cent were granted asylum and 9 per cent were granted Humanitarian Protection or Discretionary Leave.

#### ENFORCEMENT AND COMPLIANCE

- In Q3 2009, 17,055 persons were removed or departed voluntarily from the UK, 6 per cent fewer than in Q3 2008 (18,080). There was a fall of 18 per cent to 2,870 for those leaving who had claimed asylum (including dependants) and a decrease of 3 per cent to 14,185 for non-asylum cases.

## MANAGED MIGRATION

### After-entry applications to vary leave to remain

- The number of decisions<sup>1</sup> on applications to vary conditions of leave increased by 13 per cent in Q3 2009 (69,710) compared with Q3 2008 (61,670). Comparing the last 12 months (ending 30 September 2009) with the previous 12 months (ending 30 September 2008), the number of decisions increased by 4 per cent from 294,310 to 305,570.
- Of the total decisions in Q3 2009, 81 per cent (56,130) were grants of an extension, and 19 per cent (13,580) were refusals.
- There were 37,820 grants of an extension of leave to remain (excluding dependants) in Q3 2009 relating to in-country applications under the Points Based System.

### Settlement decisions

- The number of decisions on applications for settlement in the UK, excluding EEA and Swiss nationals, rose by 40 per cent in Q3 2009 (53,510) compared with Q3 2008 (38,250).
- Of the total decisions in Q3 2009, 93 per cent were grants and 7 per cent were refusals.
- The number of persons granted settlement in the UK rose by 38 per cent in Q3 2009 (49,555) compared with Q3 2008 (35,910). There were increases in employment-related grants (up 57 per cent to 23,120), family formation and reunion grants (up 3 per cent to 14,780) and other grants, including those on a discretionary basis and where the category of grant is unknown (up 93 per cent to 10,880). These were partly offset by a decrease in asylum-related grants (down 38 per cent to 775).
- Comparing the last 12 months (ending 30 September 2009) with the previous 12 months (ending 30 September 2008), the number of persons granted settlement in the UK, excluding EEA and Swiss nationals, rose by 18 per cent from 149,600 to 176,270. There were increases in employment-related grants (up 30 per cent to 76,005), family formation and reunion grants (up 17 per cent to 63,610) and other grants, including those on a discretionary basis and where the category of grant is unknown (up 1 per cent to 33,360). There was a decrease in asylum-related grants (down 7 per cent to 3,300).

### Worker Registration Scheme

- In total there were 29,085 initial applicants to the Worker Registration Scheme (WRS) in Q3 2009, compared to 41,265 in Q3 2008 and 59,155 in Q3 2007.
- The number of approved WRS applicants making initial applications in Q3 2009 was 26,940, compared to 39,220 in Q3 2008 and 57,310 in Q3 2007. The decrease is mainly explained by the fall in approved Polish national applicants, which fell to 13,700 in Q3 2009 from 25,145 in Q3 2008 and 41,195 in Q3 2007.

---

<sup>1</sup> Excluding settlement, asylum cases and dependants of principal applicants.

## British Citizenship

- Applications for British citizenship rose by 29 per cent in Q3 2009 (44,910) compared with Q3 2008 (34,945). Comparing the last 12 months with the previous 12 months applications rose by 24 per cent, from 147,055 to 181,650.
- The total number of citizenship decisions made in Q3 2009 increased by 66 per cent to 57,340 compared to Q3 2008 (34,530)<sup>2</sup>. Comparing the last 12 months with the previous 12 months, the total number of decisions rose by 53 per cent from 137,170 to 209,585.

---

<sup>2</sup> The variations in totals of British citizenship applications recorded, and decisions made, reflect changing resource priorities within UKBA as well as policy changes and other factors.

## INTRODUCTION

---

This Statistical Summary aims to give users an overview of the work of the UK Border Agency. This information is grouped by key operational area of the UK Border Agency – i.e. border control, asylum, managed migration, and enforcement and compliance.

This bulletin publishes quarterly information on decisions on after-entry applications to vary leave to remain. In addition, quarterly figures on UK entry clearance visas issued are published for the first time and the settlement section has been expanded to cover refusals of in-country applications for settlement.

Supplementary tables that accompany this bulletin include information by country of nationality. These tables are available from <http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>.

Future issues of the bulletin will contain quarterly statistics for additional topics, depending on data quality and resource.

The report contains a mixture of National Statistics, identified by the use of the symbol **(NS✓)** in the section overviews, and management information.

All data in this publication have been rounded to the nearest 5, unless stated otherwise. All figures relating to January 2008 onwards remain provisional and subject to revision, unless otherwise stated.

# 1 BORDER CONTROL

---

## 1.1 UK entry clearance visas issued (Table 1)

UKvisas was integrated in April 2008 into the UK Border Agency, the Executive Agency in the Home Office responsible for managing immigration control. The UKBA International Group now manages visa-issuing sections around the world. There are currently over 100 nationalities that require a visa to come to the UK, covering three quarters of the world population. Apart from EEA and Swiss nationals, those wanting to come to the UK for over 6 months, or to work, also require a visa.

Entry clearance visas can be classified into three categories:

- Temporary: the applicant has met the requirements for admission to the UK as a visitor, student or temporary worker and must renew the visa before it expires.
- Leading to settlement: at the end of a certain length of time, usually between two and five years, the applicant can make an application for 'indefinite leave to remain'.
- Settlement: a visa permitting a person to remain indefinitely in the UK.

The figures of entry clearance visas issued show intentions to visit rather than an actual arrival. Dependants are allocated an entry clearance category according to the circumstances of their application. It may not be the same as the category allocated to main applicant.

Key findings for Q3 2009:

- In Q3 2009, the overall number of visas issued was 610,245, an increase of 3 per cent compared with Q3 2008 (590,510). 534,960 were issued to main applicants and 75,285 to dependants.

Of the visas issued to main applicants:

- The number of student visas issued was 155,045, an increase of 34 per cent compared with Q3 2008 (115,675);
- The number of other temporary visas issued was 355,385, a decrease of 1 per cent compared with Q3 2008 (359,390).
- The number issued for reasons leading to settlement was 20,885, a decrease of 34 per cent compared to Q3 2008 (31,465). Visas issued for employment reasons declined by 36 per cent to 12,595 and visas issued for family reasons declined by 29 per cent to 8,290.
- The number of settlement visas issued was 3,645, an increase of 78 per cent compared with Q3 2008 (2,050).

Further detail on visas issued by endorsement categories can be found in Table 1.

## 1.2 Passenger Arrivals (Table 2) (NS✓)

The statistics of total passengers entering the UK are derived from a range of sources and include all persons entering the UK. The number of journeys across the border by non-EEA nationals is derived from landing cards presented to immigration officers at the border crossing point. This excludes: EEA nationals; passengers who enter as members of HM or NATO forces; officers or members of the crew of ships, aircraft or Channel Tunnel trains; those who land briefly in the UK in transit without passing through immigration control; and any passengers who enter the UK from other parts of the Common Travel Area<sup>3</sup>. The data are of the number of journeys made; a person who makes more than one journey is counted on each occasion, either in a specific category, if given fresh leave to enter, or in 'passengers returning'.

Key findings for 2008:

- The estimated number of international arrivals from outside the Common Travel Area fell by 2 per cent to 107.6 million in 2008. 12.7 million were estimated to be non-European Economic Area (non-EEA) nationals, a 6 per cent drop on 2007.

<sup>3</sup> The Common Travel Area consists of the United Kingdom, the Channel Islands, the Isle of Man and the Republic of Ireland.

**Figure 1a: Total passenger Arrivals 1999 - 2008**

- An estimated 7.0 million non-EEA visitors were admitted in 2008 compared with 7.6 million in 2007, a decrease of 7 per cent. Business visitors decreased by 6 per cent to 1.6 million whilst ordinary visitors decreased by 7 per cent to 5.4 million.
- An estimated 227,000 non-EEA students were admitted in 2008 compared with 358,000 in 2007, a decrease of 37 per cent. However, 2008 was the first complete year in which the student visitor rules were in place and persons in this category accounted for around 144,000 arrivals. In total, these data show a 3 per cent rise in student arrivals from 361,000 to 371,000.
- 112,000 non-EEA nationals were admitted as work permit holders or as their dependants in 2008, compared with 128,000 in 2007, down 12 per cent.
- In February 2008 the UK Border Agency began a phased implementation of a new Points Based System<sup>4</sup> that rationalised many of the current entry routes to the UK. A total of 4,300 persons were recorded as entering the UK in 2008 under this new process. 75 per cent (3,240) were main applicants and 25 per cent (1,060) were dependants.

<sup>4</sup> Further information about the Points Based System is available at:  
<http://www.bia.homeoffice.gov.uk/managingborders/managingmigration/apointsbasedsystem/howitworks>

### 1.3 Non-asylum passengers initially refused entry<sup>5</sup> (NS✓)

Individuals seeking to enter the UK present themselves, on arrival at a "port of entry" (either by air, sea or land ports), to an Immigration Officer (IO). IOs have the power to conduct further examination on passengers who arrive in the UK. The powers are in accordance with paragraph 2(1) of Schedule 2 to the Immigration Act 1971. An IO may examine a person who has arrived in the UK in order to determine the following: whether or not they are a British Citizen; whether or not they may enter without leave; or whether:

- they have been given leave to enter which is still in force;
- they should be given leave to enter and for what period and on what conditions (if any); or
- they should be refused leave to enter.

A person who is initially refused entry may subsequently be detained or granted temporary admission in the UK. This may be due to: an outstanding asylum claim; an appeal against a refusal of entry; or to allow travel arrangements to be made or removal directions to be set.

Key findings for Q3 2009:

- In Q3 2009, 5,760 non-asylum passengers were initially refused leave to enter at border control points, 14 per cent lower than in Q3 2008 (6,685). Of these passengers, 1,355 (24 per cent) were initially refused at juxtaposed controls.

## 2 ASYLUM

### 2.1 Asylum Applications (Tables 3-4) (NS✓)

Asylum is protection given by a country to someone who is fleeing persecution in their own country. It is given under the 1951 United Nations Convention Relating to the Status of Refugees. The Convention defines a refugee as a person who "owing to a well-founded fear of being persecuted for reasons of race, religion, nationality, membership of a particular social group or political opinion, is outside the country of his nationality and unable or, owing to such fear, is unwilling to avail himself of the protection of that country; or who, not having a nationality and being outside the country of his former habitual residence is unable or, owing to such fear, is unwilling to return to it".

Key findings for Q3 2009:

- The number of applications, excluding dependants, for asylum was 24 per cent lower in Q3 2009 (5,055) compared with Q3 2008 (6,685).
- Including dependants, the number of applications to the UK decreased by 23 per cent in Q3 2009 (6,280) compared with Q3 2008 (8,180).
- Including dependants, the estimated number of applications to the EU27 decreased by 3 per cent in Q3 2009 (63,000)<sup>6</sup> compared with Q3 2008 (64,600)<sup>6</sup>.

## 2.2 Initial Asylum Decisions (Table 3) (NS✓)

Key findings for Q3 2009:

- 7,240 initial decisions, excluding dependants, were made in Q3 2009, an increase of 38 per cent compared with Q3 2008 (5,230).
- The number of cases (excluding dependants) recorded as awaiting an initial decision was 9,300 at the end of September 2009 (9,500 at the end of September 2008).
- 12 per cent of initial decisions in Q3 2009 were to grant asylum compared with 17 per cent in Q3 2008. 9 per cent of initial decisions were to grant Humanitarian Protection or Discretionary Leave compared with 11 per cent in Q3 2008. 79 per cent of initial decisions in Q3 2009 were refusals compared with 73 per cent in Q3 2008.

## 2.3 Asylum Appeals (Table 5) (NS✓)

The Asylum and Immigration Tribunal (AIT) hears and decides appeals against decisions made by the UK Border Agency. The Immigration Judge will decide whether the appeal against the decision is successful or not (this is known as the decision being 'allowed' or 'dismissed').

Key findings for Q3 2009:

- 4,960 appeals were received by the AIT in Q3 2009, 59 per cent higher than Q3 2008 (3,125).
- The number of appeals determined increased by 48 per cent in Q3 2009 (4,410) from Q3 2008 (2,985).
- The proportion of appeals dismissed was 64 per cent in Q3 2009, whilst 31 per cent of appeals were allowed.
- The asylum work in progress total at the AIT at 30 September 2009 was 5,000<sup>7</sup>.

## 2.4 Asylum Support Applications (NS✓)

Asylum support was set up to provide for asylum seekers while they await a decision on their asylum application. Asylum seekers who applied for asylum support could receive: accommodation only (where they were allocated accommodation in a dispersal area and must otherwise support themselves); or subsistence only (where they received cash to support themselves but must find their own accommodation); or accommodation and subsistence (where they were allocated accommodation in a dispersal area and cash to support themselves).

Key findings for Q3 2009:

- The number of applications for asylum support in Q3 2009 was 3,910, 6 per cent lower than Q3 2008 (4,175).
- In Q3 2009, 3,010 (77 per cent of the total) applications were from single adults and 900 (23 per cent of the total) from family groups.

## 2.5 Supported Asylum Seekers including dependants (Tables 6-7) (NS✓)

Key findings as at the end of Q3 2009 (September):

- The total number of asylum seekers<sup>8</sup> in receipt of asylum support in Q3 2009 (29,895) was 7 per cent lower than at the end of Q3 2008 (32,170).
- 4,900 asylum seekers were receiving subsistence only support<sup>9</sup>.
- 24,170 asylum seekers were supported in dispersal accommodation<sup>10</sup>.
- 820 asylum seekers were supported in initial accommodation.

<sup>8</sup> Including dependants. Excludes unaccompanied asylum seeking children supported by local authorities, estimated at around 4,500 in September 2009.

<sup>9</sup> From Q2 2009 any cases with an invalid application status are excluded.

<sup>10</sup> Includes 'accommodation only' and 'accommodation and subsistence' supported cases.

## 2.6 Applicants supported under Section 4 of the Immigration and Asylum Act 1999 (NS✓)

Support under Section 4 of the Immigration and Asylum Act 1999 is provided in the form of accommodation and vouchers to cover the cost of food and other basic essential items. Individuals are generally eligible for Section 4 support if their asylum application has been finally determined as refused but they are destitute and there are reasons that temporarily prevent them from leaving the UK.

Key findings for Q3 2009:

- 2,620 decisions to grant Section 4 support were recorded in Q3 2009, 7 per cent higher than in Q3 2008 (2,440).
- As at the end of Q3 2009, 12,020 applicants, excluding dependants, were in receipt of Section 4 support, 18 per cent higher than in Q3 2008 (10,220).

### 3 ENFORCEMENT AND COMPLIANCE

---

The UK Border Agency seeks to remove persons who do not have any legal right to stay in the UK. This includes persons who:

- enter, or attempt to enter, the UK illegally (including persons entering clandestinely and by means of deception on-entry);
- overstay their period of legal right to remain in the UK;
- breach their conditions of leave;
- are subject to deportation action; and
- persons who have been refused asylum.

Some may depart under Assisted Voluntary Return Programmes run by the International Organization for Migration. They could also return voluntarily, to either their country of origin or a country that will accept them, after notifying the UK Border Agency of their intention to leave prior to their departure. From 2005 onwards, other voluntary departures show persons who it has been established left the UK without informing the immigration authorities.

#### 3.1 Total removals and voluntary departures<sup>11</sup> (Table 8.3) (NS✓)

Key findings for Q3 2009:

- In Q3 2009, 17,055 persons were removed or departed voluntarily from the UK, 6 per cent fewer than in Q3 2008 (18,080).
- Of those leaving in Q3 2009, 7,695 persons were refused entry at port (7 per cent fewer than in Q3 2008), 4,995 were enforced removals and notified voluntary departures (14 per cent fewer than in Q3 2008), 1,290 persons left under Assisted Voluntary Return Programmes (8 per cent higher than in Q3 2008), and 3,080 were other voluntary departures (7 per cent higher than in Q3 2008).
- Based on management information, 1,330<sup>12</sup> foreign national prisoners were removed in Q3 2009 compared with 1,330<sup>12</sup> in Q1 2009 and 1,230<sup>12</sup> in Q2 2009. The UK Border Agency's target for 2009 is to remove 5,800 foreign national prisoners and the target for 2009-10 is to remove 6,000 foreign national prisoners.

---

<sup>11</sup> Includes enforced removals, persons refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), notified voluntary departures, persons leaving under Assisted Voluntary Return Programmes and persons who it has been established left the UK without informing the immigration authorities. Figures will under record due to data cleansing and data matching exercises that take place after the extracts are taken.

<sup>12</sup> These figures are based on provisional management information, and as per all removals and voluntary departures figures are as at the dates on which the data extracts were taken. Figures may under or over record due to data cleansing and data matching exercises that take place after the extracts are taken and are therefore subject to change. They have not been quality assured under National Statistics protocols, and are not identified separately in the published statistics on removals and voluntary departures.

### 3.2 Removals and voluntary departures of asylum seekers (Table 8.1) (NS✓)

Persons who have claimed asylum and whose claims have been refused, and have exhausted any rights of appeal which would suspend removal, can be:

- refused entry at port and subsequently removed;
- removed as a result of enforcement action (by deportation, administrative or illegal entry powers); or
- removed under Third Country provisions without substantive consideration of their asylum claim.

Persons who have claimed asylum may also depart at any stage of the asylum process under Assisted Voluntary Return Programmes run by the International Organization for Migration. They could also return voluntarily, to either their country of origin or a country that will accept them, after notifying the UK Border Agency of their intention to leave prior to their departure. From 2005 onwards, other voluntary departures show persons who it has been established left the UK without informing the immigration authorities.

Key findings for Q3 2009:

- In Q3 2009, 2,725 principal applicants were removed or departed voluntarily from the UK, 16 per cent fewer than in Q3 2008 (3,260).
- Including dependants, 2,870 asylum seekers were removed or departed voluntarily from the UK in Q3 2009, 18 per cent fewer than in Q3 2008 (3,500).
- 795 asylum seekers left under Assisted Voluntary Return schemes in Q3 2009 (760 principal applicants and 30 dependants), 5 per cent higher than Q3 2008.
- 350 asylum seekers left via other types of voluntary departures in Q3 2009<sup>13</sup>, 51 per cent fewer than in Q3 2008 (710).

<sup>13</sup> Persons who it has been established left the UK without informing the immigration authorities.

### 3.3 Persons entering detention<sup>14</sup> (Table 9)

Immigration legislation provides powers of detention. People are detained under Immigration Act powers in UK Border Agency Removal Centres, UK Border Agency Short Term Holding Facilities, police cells and Prison Service establishments. Detention may be used whilst identity and basis of claim are established, where there is a risk of absconding, as part of fast-track asylum procedures (in the case of straightforward asylum claims that can be decided quickly) and in support of the removal of failed asylum seekers and others who have no legal right to be in the UK.

Statistics are produced on those entering detention over a period of time.

Key findings for Q3 2009 (based on management information):

- A total of 7,110 people entered detention, held solely under Immigration Act powers in Q3 2009. Of these 7,110, 4,120 (58 per cent of the total) were asylum detainees.
- Of the 7,110 people entering detention in Q3 2009, 3,965 (56 per cent of the total) entered UK Border Agency Removal Centres and 3,145 (44 per cent of the total) entered UK Border Agency Short Term Holding Facilities.
- 315 children entered detention in Q3 2009. Of these 315, 200 (63 per cent of the total) were asylum detainees.

### 3.4 Persons detained solely under Immigration Act powers<sup>15</sup> (Tables 10-12) (NS✓)

Statistics on persons detained solely under Immigration Act powers are published as a snapshot as at the last day of each quarter. They exclude people detained under both criminal and immigration powers and currently exclude people detained in Prison Service establishments on the date the snapshot was taken.

Key findings as at the end of September 2009:

- A total of 2,885 persons were detained in the UK Border Agency estate, 19 per cent higher than as at the end of September 2008 (2,415).
- 2,765 were held at UK Border Agency Removal Centres and 120 at UK Border Agency Short Term Holding Facilities.
- 2,070 persons who had sought asylum at some stage were being detained solely under Immigration Act powers (72 per cent of all detainees), 22 per cent higher than as at the end of September 2008 (1,690). 89 per cent of asylum detainees were male.
- 45 people detained solely under Immigration Act powers were recorded as being less than 18 years of age. 35 of these had been in detention for less than 29 days, and 10 for between 29 days and two months.
- Management information shows that of the 2,885 people detained, 1,015 had been in detention for less than 29 days, 540 for between 29 days and two months, 560 for between two and four months, 250 for between four and six months, 295 for between six months and a year, and 225 for over a year.
- Management information shows that there were 26 families with children held in the UK Border Agency estate under Immigration Act Powers as at the end of September 2009.

---

<sup>14</sup> These figures are based on management information and are not subject to the detailed checks that apply for National Statistics. They are provisional and may be subject to change. Excludes persons detained in Harwich Short Term Holding Facility, police cells and Prison Service establishments.

<sup>15</sup> Excludes persons detained in police cells and Prison Service establishments.

### 3.5 Total persons leaving detention<sup>14</sup>

Statistics are produced on those leaving detention over a period of time. Upon leaving detention people can be removed from the UK, granted leave to enter/remain, granted temporary admission/release or bailed. Currently, published National Statistics are only available on persons who are removed from the UK upon leaving detention. Figures on all persons leaving detention are based on management information.

Key findings for Q3 2009 (based on management information):

- A total of 6,975 people left detention, held solely under Immigration Act powers in Q3 2009. Of these 6,975, 4,000 (57 per cent of the total) were asylum detainees.
- 305 children left detention in Q3 2009. Of these 305, 195 (63 per cent of the total) were asylum detainees.

### 3.6 Persons removed from the UK upon leaving detention<sup>15</sup> (Table 14) (NS✓)

Key findings for Q3 2009:

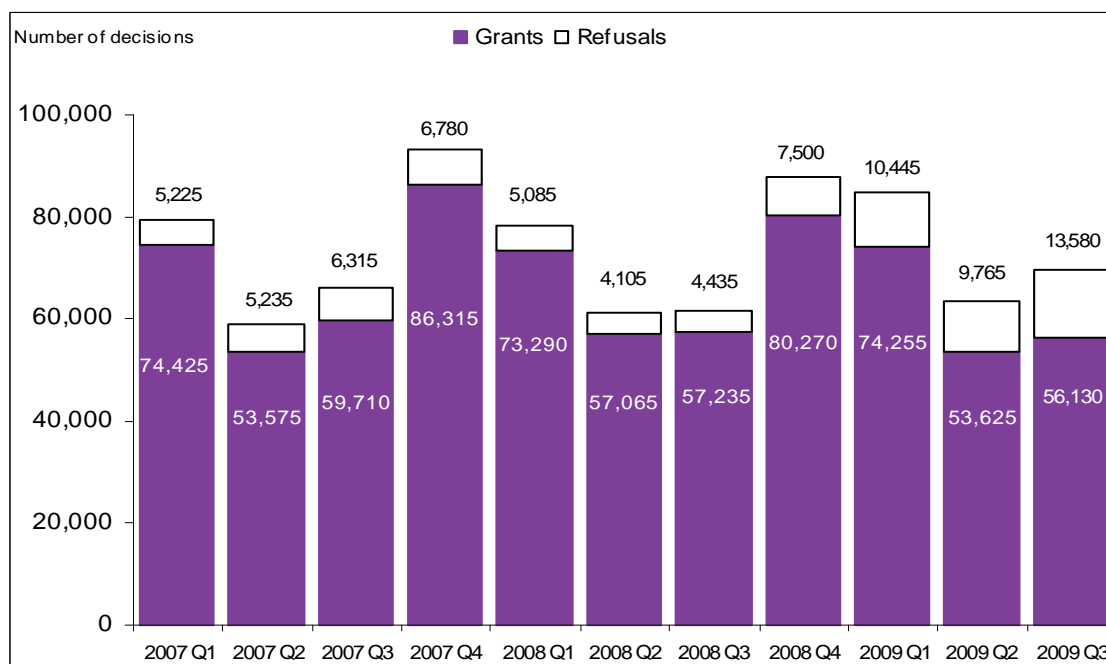

- A total of 4,085 people (held solely under Immigration Act powers) were removed from the UK upon leaving detention in Q3 2009, 2 per cent lower than in Q3 2008 (4,180). Of these 4,085, 1,870 (46 per cent of the total) were asylum detainees, 5 per cent higher than in Q3 2008 (1,780).
- 150 children were removed from the UK upon leaving detention in Q3 2009, 14 per cent lower than in Q3 2008 (175).
- Of the 4,085 people removed from the UK upon leaving detention in Q3 2009, 2,560 (63 per cent of the total) left from UK Border Agency Removal Centres and 1,525 (37 per cent of the total) left from UK Border Agency Short Term Holding Facilities.

## 4 MANAGED MIGRATION

### 4.1 After-entry applications to vary leave to remain<sup>16</sup> (Table 15) (NS✓)

Statistics on after-entry applications to vary leave to remain relate to persons wishing to extend or change the status of their stay in the UK. An individual is required to make an application for an extension or change in status before their existing permission to enter or stay has expired. Within the immigration rules an individual may make more than one application in any given year. It is difficult to compare data across time periods because of significant changes to immigration rules.

**Figure 4a: Decisions on applications for leave to remain in the United Kingdom, Q1 2007 to Q3 2009**

Key findings for Q3 2009:

- The number of decisions<sup>17</sup> on applications to vary conditions of leave, excluding dependants of principal applicants, increased by 13 per cent in Q3 2009 (69,710) compared with Q3 2008 (61,670). Comparing the last 12 months (ending 30 September 2009) with the previous 12 months (ending 30 September 2008), the number of decisions rose by 4 per cent from 294,310 to 305,570.
- Of the total decisions in Q3 2009, 81 per cent (56,130) were grants of an extension, and 19 per cent (13,580) were refusals.
- There were increases in grants of an extension of leave to remain relating to study (up 46 per cent to 24,395). Comparing the last 12 months with the previous 12 months, the number of grants fell by 8 per cent from 122,410 to 112,195.
- Employment-related grants of an extension of leave to remain fell by 28 per cent in Q3 2009 (22,400) compared with Q3 2008 (31,290). Comparing the last 12 months with the previous 12 months, the number of grants increased by 8 per cent from 107,920 to 116,400.

<sup>16</sup> The variations in the number of decisions on applications to vary leave to remain may reflect changing resource priorities within UKBA as well as policy changes and other factors.

<sup>17</sup> Excluding settlement, asylum cases and dependants of principal applicants.

- There were 37,820 grants of an extension of leave to remain in Q3 2009 relating to in-country applications under the Points Based System.

(1) Includes grants where the category is not known.

## 4.2 Settlement decisions (Table 16) (NS✓)

The statistics of grants of settlement – i.e. persons subject to immigration control who are allowed to remain in the UK indefinitely – are the main available measure of long term immigration of persons subject to immigration control. The settlement figures comprise persons granted settlement on arrival at ports, and persons initially admitted to the country subject to a time limit that was subsequently removed on application to the Home Office. Following changes to the immigration rules in recent years, the majority of grants are on removal of time limit.

**Figure 4b: Grants and refusals of settlement, Q1 2007 to Q3 2009**

When comparing some aspects of settlement data, changes in the immigration rules, enlargement of the EU, and various UK Border Agency programmes need to be considered<sup>18</sup>.

Key findings for Q3 2009:

- The number of decisions on applications for settlement in the UK, excluding EEA and Swiss nationals, rose by 40 per cent in Q3 2009 (53,510) compared with Q3 2008 (38,250).
- Of the total decisions in Q3 2009, 93 per cent were grants and 7 per cent were refusals.
- The number of persons granted settlement in the UK, rose by 38 per cent in Q3 2009 (49,555) compared with Q3 2008 (35,910). Comparing the last 12 months (ending 30 September 2009) with the previous 12 months (ending 30 September 2008), grants of settlement rose by 18 per cent, from 149,600 to 176,270.
- Employment-related grants of settlement rose by 57 per cent in Q3 2009 (23,120) compared with Q3 2008 (14,730). Comparing the last 12 months with the previous 12 months, employment-related grants of settlement rose by 30 per cent, from 58,515 to 76,005.
- There were 775 asylum-related grants of settlement in Q3 2009 compared with 1,240 in Q3 2008. Comparing the last 12 months with the previous 12 months, asylum-related grants of settlement decreased by 7 per cent, from 3,550 to 3,300.
- Family formation and reunion grants of settlement rose by 3 per cent in Q3 2009 (14,780) compared with Q3 2008 (14,290). Comparing the last 12 months with the previous 12 months, family formation and reunion grants of settlement rose by 17 per cent, from 54,425 to 63,610.
- Other grants, including those on a discretionary basis and where the category of grant is unknown, rose by 93 per cent from 5,645 in Q3 2008 to 10,880 in Q3 2009. Comparing the last 12 months with the previous 12 months, other grants of settlement rose by 1 per cent, from 33,110 to 33,360.

2008 Q3	35,910	14,730	1,240	14,290	5,645
2008 Q4	35,730	15,505	1,115	12,005	7,105
2009 Q1	44,870	17,550	805	19,860	6,655
2009 Q2	46,120	19,835	600	16,965	8,720
2009 Q3	49,555	23,120	775	14,780	10,880

(1) In April 2006, the qualifying period for settlement in all employment-related categories changed from 4 to 5 years, delaying grants of settlement that would otherwise have occurred earlier. This led to a fall in the number of grants between Q2 2006 and Q2 2007 inclusive after which grants returned to previous levels.

(2) Asylum-related grants of settlement were at high levels between Q3 2006 and Q2 2007 due to the Family Indefinite Leave to Remain (ILR) exercise and due to grants to persons given exceptional leave four years previously.

(3) Data from Q3 2007 include persons granted indefinite leave outside the immigration rules under measures aimed at clearing the backlog of outstanding unresolved cases.

(4) Includes grants where the category is not known.

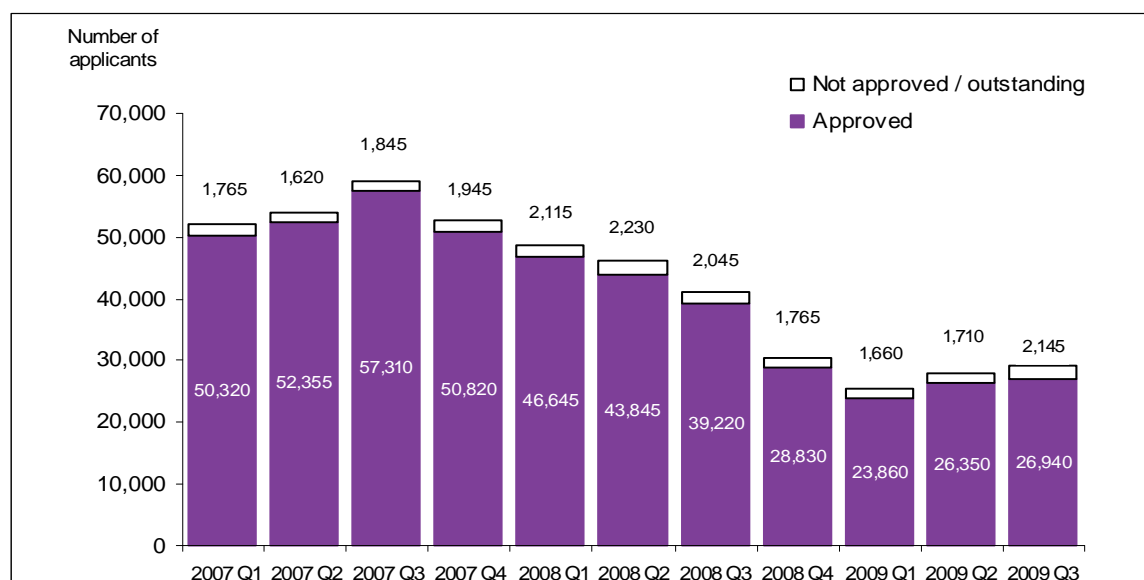

### 4.3 Worker Registration Scheme and benefit applications (Tables 17-18)

On 1 May 2004, ten countries – Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia – joined the European Union (EU). From that date, nationals of Malta and Cyprus have had full free movement rights and rights to work, throughout the EU. Prior to enlargement, existing EU member states had the right to regulate access to their labour markets by nationals of the other eight countries – the ‘Accession 8’, ‘or ‘A8’. The UK Government put in place transitional measures to regulate A8 nationals’ access to the labour market (via the Worker Registration Scheme) and to restrict access to benefits.

Key findings for Q3 2009:

- In total there were 29,085 initial applicants to the Worker Registration Scheme (WRS) in Q3 2009, compared to 41,265 in Q3 2008 and 59,155 in Q3 2007.
- The number of applicants making approved initial applications in Q3 2009 was 26,940, compared to 39,220 in Q3 2008 and 57,310 in Q3 2007. The decrease in initial applications is mainly explained by the fall in approved Polish national applicants, which fell to 13,700 in Q3 2009 from 25,145 in Q3 2008 and 41,195 in Q3 2007.
- There were 5,300 applications for tax-funded income-related benefits in Q3 2009, compared to 3,413 received in Q3 2008. The majority of applications were disallowed on failing the Right to Reside and Habitual Residence Test. For example, 3,693 (70 per cent) were disallowed in Q3 2009.

**Figure 4c: WRS applicants, by quarter of applications, Q1 2007 to Q3 2009**

#### 4.4 Bulgarian and Romanian Accession Statistics (Table 19)

On 1 January 2007 Bulgaria and Romania joined the EU. The Accession (Immigration and Worker Authorisation) Regulations 2006 make Bulgarian and Romanian nationals taking employment in the UK after 31 December 2006 subject to a requirement to hold a work authorisation document. Other Bulgarian and Romanian nationals not taking employment but exercising a Treaty right in the UK may seek a registration certificate. This includes: those exempt from the worker authorisation restrictions; highly skilled migrants; those with restricted access to the labour market; and Bulgarian and Romanian family members of main applicants.

Key findings for Q3 2009:

- Total applications received for 745 accession worker cards (down 27 per cent from 1,020 in Q3 2008); 600 of these applications were approved (down 19 per cent from 745 in Q3 2008).
- There were a total of 6,305 applications for registration certificates, (up 14 per cent from 5,540 in Q3 2008). 4,775 of these applications were approved (up 10 per cent from 4,330 in Q3 2008).
- The operators of the Seasonal Agricultural Workers Scheme (SAWS) issued 870 SAWS work cards to Bulgarian nationals and 770 to Romanian nationals, making a total of 1,635 compared to 1,010 issued in Q3 2008.

#### 4.5 British Citizenship (Table 20) (NS✓)

The British Nationality Act 1981 came into force on 1 January 1983 and replaced citizenship of the UK and Colonies with three separate citizenships: (a) British citizenship, for people closely connected with the UK, the Channel Islands and the Isle of Man; (b) British overseas territories citizenship, for people connected with the British overseas territories; and (c) British Overseas citizenship, for those citizens of the UK and Colonies without connections with either the UK or the British overseas territories.

The Nationality, Immigration and Asylum Act 2002 amended the British Nationality Act 1981 and requires all successful applicants for British citizenship who are aged 18 or above to take an oath and pledge at a citizenship ceremony, unless exempted by the Home Secretary.

The variations in totals of applications recorded, and decisions made, reflect changing resource priorities within UKBA as well as policy changes and other factors.

## Citizenship Applications received

Key findings for Q3 2009:

- Applications for British citizenship rose by 29 per cent in Q3 2009 (44,910) compared with Q3 2008 (34,945). Comparing the last 12 months (ending 30 September 2009) with the previous 12 months (ending 30 September 2008) applications rose by 24 per cent, from 147,055 to 181,650.

**Figure 4d: British Citizenship Applications, Q1 2007 to Q3 2009 (1)**

(1) Data of British citizenship applications has been revised to exclude Right of Abode cases and therefore differ from those published before May 2009.

(2) The unusually high number of applications received in Q1 2007 and Q1 2009 may be connected with the increases in processing fees introduced on 1<sup>st</sup> April 2007 and 6<sup>th</sup> April 2009.

(3) The increase in the number of applications in Q1 2008 may be connected to publication of the green paper "The Path to Citizenship: Next Steps in Reforming the Immigration System" in February 2008.

## Citizenship decisions - Grants and Refusals

Key findings for Q3 2009:

- The total number of decisions made in Q3 2009 increased by 66 per cent to 57,340 compared to Q3 2008 (34,530). The number of decisions made in Q3 2009 has recovered from the comparatively low level in Q2 2008 when staff resources were temporarily transferred from decision-making to deal with administration of an increase in new applications<sup>19</sup>. Comparing the last 12 months with the previous 12 months the total number of decisions rose by 53 per cent from 137,170 to 209,585.

<sup>19</sup> This followed publication of the green paper "The Path to Citizenship: Next Steps in Reforming the Immigration System" in February 2008.

- The number of persons granted British citizenship in the UK increased by 69 per cent to 54,430 in Q3 2009 compared to Q3 2008 (32,220). Comparing the last 12 months with the previous 12 months the number of persons granted British citizenship rose by 57 per cent from 126,310 to 197,955.
- 2,915 applications for British citizenship were refused, withdrawn or found to be British already in Q3 2009, an increase of 26 per cent compared to Q3 2008 (2,310). Refusals made up 5 per cent of all decisions in Q3 2009. In the previous 4 quarters the proportion has varied between 5 and 7 per cent. Comparing the last 12 months with the previous 12 months the number of applications refused, withdrawn or found to be British already rose by 7 per cent from 10,860 to 11,630.

**Figure 4e: British Citizenship Decisions made, Q1 2007 to Q3 2009**

- Comparing Q3 2009 with Q3 2008 the proportion of decisions to grant based on residence fell to 49 per cent from 50 per cent. Grants based on marriage for the same periods increased to 26 per cent from 25 per cent while grants to children rose to 23 per cent from 22 per cent.
- Comparing the last 12 months with the previous 12 months the proportion of decisions to grant based on residence was the same at 50 per cent. Grants based on marriage for the same periods increased to 25 per cent from 22 per cent. Grants to children fell from 25 per cent to 23 per cent.

## BACKGROUND NOTES

---

### Revision of quarterly asylum statistics bulletin

1. The contents of the quarterly asylum bulletin were reviewed following the user consultation of the review of published statistics on control of immigration carried out during December 2007 to February 2008. Having looked at the scope, detail and frequency of the UK Border Agency's migration statistics the intention to proceed was announced on 20 May 2008 – see link below:  
<http://www.homeoffice.gov.uk/rds/pdfs08/asylum-stats-proposal-0508.pdf>
2. This revised publication, introduced in Q2 2008, is the result of that consultation and aims to give users an overview of the work of the UK Border Agency. The information is grouped by key operational area of the UK Border Agency – i.e. border control, asylum, managed migration, and enforcement and compliance. This issue of the bulletin introduces quarterly statistics on UK entry clearance visas issued and decisions on after-entry applications to vary leave to remain.

### Supplementary Tables

3. Supplementary tables are available online from <http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>. These give further breakdowns of the statistics published in the main tables.

### Explanatory notes

4. More detailed explanatory notes relating to the control of immigration can be found published in the Explanatory Notes section within the annual Home Office Statistical Bulletin. Issue 14/09 “Control of Immigration: Statistics United Kingdom 2008” is available online from <http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>.

### Revisions to data

5. All the UK statistics produced on a quarterly basis are provisional. It is anticipated that the data will be revised in due course. It is not possible to evaluate whether the revisions will be upward or downward; but the reasons for revisions are likely to include:
  - late reporting of cases – a small proportion of cases are not included when the statistics are calculated for the quarterly publication;
  - the results of data cleansing exercises (data identified that cannot be included when the statistics are calculated for the quarterly publication because of missing or invalid values, the identification of duplicates in the data); and
  - reconciliations with alternative sources of data which will identify cases not yet included in the statistics.
6. Statistics on removals and voluntary departures in Q2 2009 have been revised due to the correction of the “Other voluntary departure” removal category allocated to a new case type introduced onto the Case Information Database. Overall totals were not affected. The Q2 2009 Control of Immigration quarterly statistical summary statistics and supplementary tables have been amended accordingly.

## National Statistics

7. 'National Statistics' are a subset of official statistics which have been granted accreditation by the UK Statistics Authority. National Statistics are produced to high professional standards set out in the Code of Practice and undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from political interference. A statement regarding the Home Office compliance with the Code of Practice and the protocols can be found at:  
[http://www.homeoffice.gov.uk/rds/pdfs07/ho\\_compliance\\_statement\\_07.pdf](http://www.homeoffice.gov.uk/rds/pdfs07/ho_compliance_statement_07.pdf).

## OTHER SOURCES OF INFORMATION ON IMMIGRATION

---

### Home Office statistical publications

1. Quarterly information on “Control of Immigration” is published for the sixth time on 26 November 2009 in this bulletin. This contains the information within this bulletin together with supplementary tables on the internet available at:  
<http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>.

This is the initial outcome of the Border and Immigration Agency (now UKBA) review of statistics on “control of immigration”. The final report is available at:  
<http://www.homeoffice.gov.uk/rds/pdfs07/bia-immig-stat-review-07.pdf>.

2. Statistical information on control of immigration trends which sets the figures in this bulletin in a wider context is published annually in the Home Office Control of Immigration Statistical Bulletin. The latest bulletin, Issue 14/09 “Control of Immigration Statistics, United Kingdom 2008”, is available online from  
<http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>. Issues of “Control of Immigration: Statistics United Kingdom” prior to 2007 were published in the form of a Command Paper and are available online from The Stationery Office website at:  
<http://www.official-documents.gov.uk/menu/browseDocuments.htm>. The National Statistics publication hub <http://www.statistics.gov.uk/hub/population/> also lists a wide range of statistical publications on immigration and migration.
3. Statistical information on asylum applications and decisions which sets the figures in this bulletin in a wider context are also included within the Home Office Statistical Bulletin, Issue 14/09 “Control of Immigration: Statistics United Kingdom 2008. Prior to this date statistics were published annually in the “Asylum Statistics United Kingdom” bulletin available online from <http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>.
4. Statistical information on grants of British citizenship is published annually in the Home Office British Citizenship Statistical Bulletin. The latest bulletin, Issue 09/09 “British Citizenship Statistics United Kingdom, 2008”, available online from  
<http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>.

The Home Office UK Border Agency published until May 2009:

5. ‘Accession Monitoring Report’, a quarterly report on the Accession State Worker Registration Scheme.

‘Bulgarian and Romanian Accession Statistics’, a quarterly report on the schemes for Bulgarian and Romanian nationals.

The two publications above were based on management information and not National Statistics. Past copies can be found at:  
<http://www.ukba.homeoffice.gov.uk/aboutus/reports/>

Please note from August 2009 the UK Border Agency no longer publishes separate quarterly Accession monitoring reports (Accession Monitoring Report and Bulgarian and Romanian Accession Statistics) about A8 and A2 worker registrations and associated data. The last full reports were published in May 2009.

Key findings and summary data for the A8 and A2 will continue to be published within this publication.

Enquiries about accession monitoring policy should be made to the UK Border Agency, WRS A8 and A2 Policy Teams, Apollo House, 36 Wellesley Road, Croydon CR9 3RR, and for data should be made to Migration Statistics, Home Office Statistics, Room 1402 Apollo House, 36 Wellesley Road, Croydon CR9 3RR.

### **Home Office research publications**

Research reports on immigration control are published by the Research, Development and Statistics Directorate (RDS) as online reports and occasional papers available online from <http://www.homeoffice.gov.uk/rds/horrrpubs.html>.

### **Publications by other government departments**

“Control of Immigration Statistics, United Kingdom 2008”, available online from <http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html>, provides a list of further sources of information on control of immigration.

(1) All figures for appeals determined are cases dealt with by Immigration Judges

(2) Figures (other than percentages) are rounded to the nearest 5 with \* = 1 or 2. Figures may not sum to the totals shown because of independent rounding.

(3) Based on information supplied by the Ministry of Justice. 'Appeals received' data include some cases lodged at the Home Office and transferred to the AIT.

The data also include a small number of cases initially flagged as being potentially invalid or out of time for which the papers were examined by an Immigration Judge and determined to be valid and/or in-time. These cases then proceed through the appeal system.

(4) Based on information supplied by the AIT. Determinations do not necessarily relate to appeals received in the same period.

(5) Figures include cases withdrawn by the Home Office, as well as those withdrawn by the appellant.

(P) Provisional figures.

(2) Excludes unaccompanied asylum seeking children supported by local authorities, estimated around 4,500 in September 2009.

(3) Excludes those in initial accommodation, 820 as at the end of September 2009.

(4) Only those Local Authorities where dispersed or disbenefited cases are resident are shown.

(5) Disbenefited cases are cases which were previously supported under the main UK benefits system and have been moved onto asylum support. Some of these cases have remained in the original social services accommodation.

(1) Figures rounded to the nearest 5 (- = 0, \* = 1 or 2) and may not sum to the totals shown because of independent rounding.

(2) Due to a reclassification of removal categories, figures include asylum removals performed by Enforcement Officers using port powers of removal and a small number of cases dealt with at juxtaposed controls.

(3) Since October 2006 figures include persons leaving under Facilitated Return Schemes.

(4) Persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration. May include some cases leaving under the Assisted Voluntary Return for Irregular Migrants Programme and some cases where enforcement action has been initiated.

(5) Persons who it has been established left the UK without informing the immigration authorities.

(P) Provisional figures. Removals and voluntary departures recorded on the system as at the dates on which the data extracts were taken. Figures will under record due to data cleansing and data matching exercises that take place after the extracts are taken.

(R) Revised figures; see Background notes, paragraph 6.

(1) Figures rounded to the nearest 5 and may not sum to the totals shown because of independent rounding.

(2) Includes reconsideration cases and the outcome of appeals.

(3) May include a small number of cases in which a decision is recorded twice, where an individual has dual nationality.

(4) Data exclude dependants of EEA and Swiss nationals in confirmed relationships granted permanent residence.

(5) Excludes Bulgaria and Romania from 1 January 2007.

(6) In April 2006, the qualifying period for settlement in all employment-related categories changed from 4 to 5 years delaying grants of settlement that would otherwise have occurred earlier.

(7) Asylum-related grants of settlement were at high levels between Q1 2006 and Q2 2007 due to the Family Indefinite Leave to Remain (ILR) exercise and due to grants to persons given exceptional leave four years previously.

(8) Excludes reconsideration cases and the outcome of appeals.

(9) Exceptional leave to remain (ELR), Humanitarian Protection (HP), Discretionary Leave (DL).

(10) Spouses and dependants joining British citizens or persons previously granted settlement.

(11) Includes civil and unmarried partners.

(12) Data from Q3 2007 include persons granted indefinite leave outside the immigration rules under measures aimed at clearing the backlog of outstanding unresolved cases.

(13) Relates to in-country refusals of settlement.

(P) Provisional figures.

(R) Revised figures.

(1) Figures rounded to the nearest 5 (other than percentages) and may not sum to the totals shown because of independent rounding.

(2) This table shows approved initial applicants for each nationality rather than the total number of applications made. The figures are for initial applicants only (not multiple applications, where an individual is doing more than one job simultaneously, or re-registrations, where an individual has changed employers).

(3) The data for WRS applications are recorded by the date on the application form, the standard statistical approach. However, as applications continue to be received and decisions continue to be made on applications dated and received in previous quarters, the number of applications may increase in future reports.

(1) Figures rounded to the nearest 5 and may not sum to the totals shown because of independent rounding.

(2) The data for accession worker cards and registration certificates are recorded by the date on the application form, the standard statistical approach. However, as applications continue to be received and decisions continue to be made on applications dated and received in previous quarters, the number of applications may increase in future reports.

(3) Quarterly management information from UK Border Agency for SAWS is based on information provided by the operators who are responsible for administering the scheme on behalf of the UK Border Agency. The data have not therefore been subject to the same cleansing processes as other data. The 2008 SAWS total shows as being higher than the 2008 SAWS quota of 16,250. In practice, in 2008 SAWS work cards in respect of 16,213 individuals were issued against the 2008 quota.
